## What is Women Build?

Women Builds are all about women supporting women. It's a way to tap into your community and triple your impact around affordable housing.

## Who can participate? Is this a women-only event?

Building volunteers must be 16 years or over but people of all ages can raise awareness and raise donations for the project.

While Women Builds are focused on women and the majority of participants are women, this is an inclusive event. Any woman or person who wants to build with us is invited to join.

## Fundraising?

Any donations you raise will directly support the building of homes at Firefly Field. We are challenging all participants to raise \$75. Help us reach our goal of \$5,000!

We'll email registrants a guide to help get them started with our peer-to-peer fundraising platform.

## Not into technology?

Fear not!

We also take checks by mail and donations through our website. Just write the participant's name and Women Build in the memo line.
